KEYNOTE

PROF. DR. RIEL MILLER

For forty years Riel has been co-creating innovation, leadership, and transformation in both the public and private sectors around the world.

He was formerly Head of Foresight and Futures Literacy at UNESCO in Paris, from 2012-2022. He is one of the world's leading strategic foresight designers and practitioners.

Currently, Riel is working with universities, governments, companies, and think tanks from around the world to introduce an anticipatory systems and processes approach to promote an understanding of the attributes and role of the future.
